2. PMKSY-PDMC focuses on enhancing water use efficiency at farm level through Micro Irrigation technologies viz. Drip and Sprinkler irrigation systems. Besides promoting Micro Irrigation, this component also supports micro level water harvesting, storage, management etc. activities as Other Interventions (OI) to supplement Micro Irrigation.

3. The OI activities should be taken up based on actual requirement. However, the amount for these activities must be restricted upto 20% of the total allocation of the State. The OI activities must be linked with Micro Irrigation to make potential use of the available funds for higher water use efficiency.

Activities/interventions to be conducted in these identified districts has been conveyed to States by this Department vide letter No 16-1/2020-RFS-III dated 13.3.2020. Accordingly, the State should submit district wise progress in every month to this Department against the set targets on priority basis.

Accordingly, PMKSY-PDMC scheme should be converged with PM-KUSUM scheme on promotion of micro irrigation systems and solar pumps be combined with Micro Irrigation following the Guidelines of the scheme and in coordination with respective implementing Agencies.

Promotion of Micro Irrigation for water conservation in Ganga Basin is one of the identified activity under the thrust area of development of villages along the main stream of river Ganga under Namami Gange programme. It is requested to cover the Micro Irrigation in Namami Gange districts/Gram Panchayats (GPs) along the stretch of river Ganga basin under Per Drop More Crop component of PMKSY (PMKSY-PDMC).
